

24 Service Response: 1-800-838-3840

LOCAL DROP-OFF FOR SECURE DATA DESTRUCTION!

5407 N. Haverhill Rd., Ste 340, West Palm Beach, FL 33407

Visit our website: www.ShredAssured.com

ShredAssured shreds more than paper documents. We also destroy computers, back-up tapes, hard drives, uniforms, pill bottles and other forms of proprietary information, beyond recognition, reconstruction and readability. Call us for more information.

# Data Destruction - It's The Law! ShredAssured Offers Secure Destruction Solutions

## Step-By-Step to Peace of Mind

### STEP 1

A ShredAssured Security Officer - licensed, bonded and specially insured - will pick your materials up without interfering with your daily operations. If you prefer, you may deliver your confidential materials to our facility yourself and witness the destruction in person.

### STEP 2

Either our completely self-contained mobile shredding trucks will shred your data at your place of business or the materials are destroyed beyond recognition, reconstruction and readability at our secure warehouse under strictly controlled conditions. Both services ensure your compliance with all federal laws and regulations.

### STEP 3

Once the destruction process has been completed, you are issued A Certificate of Destruction certifying the time and date your materials were destroyed. This verifies that all of your confidential materials have been destroyed in a secure manner.

## ShredAssured Guarantees

- On-Site, Off-Site and Drop-Off Services.
- Scheduled Security Container Services.
- One Time (Purge) Services.
- Home Office / Residential Shredding Services.
- After Hours and Weekend Services.
- Comprehensive and Economical Shredding Programs.
- Bonded, Screened and Specially Insured Personnel.
- A Locally Owned - Professionally Operated Business.

## ShredAssured Recycles

All of the shredded material that can be recycled goes directly to licensed recyclers.

Destroyed hard drives are recycled into items such as appliances, building materials and rebar.

Shredded documents are recycled into materials such as newspapers, phone books, office paper, paper towels, toilet paper, cardboard and corrugated boxes.

For every ton of paper recycled, you help save 17 trees, 380 gallons of oil, 3 cubic yards of landfill space, 4000 kilowatts of energy and 7000 gallons of water.

**WARNING! Recycling alone does NOT meet the necessary requirements of Secure Data Destruction!**

## Our Mission

At ShredAssured, our mission is to establish relationships with our clients by providing them with superior security, outstanding customer service and cost effective pricing. ShredAssured guarantees you the highest quality service you should demand, as well as the peace of mind you should expect. For all of your destruction needs, ShredAssured is the answer for Maximum Security and Privacy Protection.
